LEONARDO DA VINCI
Transfer of Innovation Project
№ 2013-1-BG1-LEO05-08698

Project title:
ECVET - based training of trainers in organic food retailing to 'EcoQualify' Quality Assurance System (ECVET-EcoQualify)

№ 2013-1-BG1-LEO05-08698

Objectives:

The main objective of the ECVET-EcoQualify project is to create a training course for teachers/trainers and tutors/instructors to offer them the abilities to plan, design and distribute European Credit System for Vocational Education and Training (ECVET) and European Qualifications Framework (EQF)-based training courses in the field of organic food retailing, including e-learning.

Target groups:

ECVET-EcoQualify addresses the Priority titled: Support to initial and continuous training of VET teachers, trainers, tutors and VET institution managers (LEO-Tralno-8). The target group includes teachers and trainers, VET providers of services and trainers in the field of lifelong learning.

The specific project objectives are:

- Translate and adapt of the EQF and ECVET for EcoQualify to NQF of partner countries;
- Analyze, compile and define didactics and methodologies for training of teachers/trainers and tutors in the organic sector based on the "EcoQualify" QAS and following the EQF and ECVET learning outcomes approach;
- Pilote the on-line training course and collect feedback for its improvement;
- Define of Community of Practice with shared interests and manifest a common cooperation agreement among stakeholders of VET in organic retail sector in order to produce a market oriented training course.

Project products/ results:

- Methodology for EQF and ECVET - based training course for organic food retailing
- Learning outcomes - national versions
- Guidelines for VET institutions in organic sector
- On-line training course
- Analysis report of the pilot training course
- Social Network Platform for Community of Practice
